Monday
June 17, 2019

Wheatley Hills Golf Club
East Williston, NY

To support the Hagedorn Cleft Palate
and Craniofacial Center at
North Shore University Hospital

A smile is a natural expression of recognition, warmth and love.

Unfortunately, for children born with a cleft lip or cleft palate this universal gesture does not come naturally. The Hagedorn Cleft Palate Center serves as a center for diagnostic, medical and surgical care to infants and children who are born with facial differences. The Center provides immediate medical and emotional care to all infants, and their families, born with a facial difference.
